

WE PROSPER TOGETHER

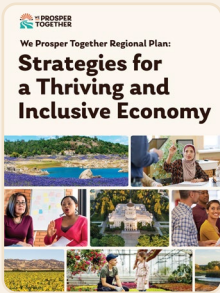

Building an inclusive and sustainable economy where we can all prosper.

Transforming industries, changing populations, the rising impacts of climate change, and more is shifting our economy. We have to ensure that our communities are not left behind. Leveraging the strengths of our eight-county region, **We Prosper Together** is an opportunity for us to shape a workforce that meets the needs of our future while advancing an economy where we can all thrive.

Our Vision

We Prosper Together is building a lasting economy that represents and meets the needs of our communities, allowing families to thrive for generations.

Our Regional Plan

We Prosper Together's Regional Plan outlines a shared roadmap for economic progress, focusing on creating high-quality jobs, connecting disinvested communities to opportunities, and ensuring equitable outcomes. Informed by the community and extensive research, the strategies outlined will shape future investments by **We Prosper Together** and beyond.

The plan identifies two primary strategies:

TARGET SECTOR STRATEGIES:

Strategies focused on investments in four high-growth sectors with the greatest potential for quality job creation. **These sectors include:**

 Business Services

 Precision Manufacturing

 Working Lands

 Biotechnology

ECONOMIC MOBILITY STRATEGIES:

Approaches that connect disinvested communities with existing high-quality job opportunities, ensuring equitable future economic growth results for all regional residents. **These approaches include:**

 Workforce Development

 Career Outreach and Awareness

 Transportation

 Childcare

 Housing

Who We Are

We are representatives, residents, businesses, local governments, community organizations and more from across our region. Together with our partners, we are creating a more inclusive and resilient regional economy.

Our goals are to:

Strengthen our Collaborative.

Enable our region to make impactful collective decisions.

Attract investments to our region.

Encourage diverse streams of investments that support our region for years to come.

Create accessible living-wage jobs.

Generate more living-wage jobs for all in a sustainable economy.

Our Role

Supported by California Jobs First, **We Prosper Together** is taking a new approach to economic development. We are committed to building bridges, putting fresh ideas into action, and reimagining our economy and workforce.

Transformation for our region is only possible when we come together and ensure that those who are most impacted and those who have been historically underserved are at the decision-making table.

Through a community-led approach, we will elevate diverse voices, amplify local solutions, and create living-wage jobs for a thriving future.

Moving towards a brighter future where we can all prosper requires all of us to take action.

Join the collaborative.
